- *Hammer Strength Plate Loaded
- *Hammer Strength Heavy Duty Power Racks

Facility Bio: Canyon Crest Academy is an outstanding learning community located in the coastal North County region of San Diego. Current enrollment is approximately 1900 students in grades 9-12. Since August 2004, CCA has been a leader in achievement and performance for our district and in our county.

This project took about two years of planning. The Athletic Director, Matt McCullough, was very helpful in choosing the products and brand he wanted for his programs. He cared very much about the quality of the products and their long term durability in a school setting. The layout and design accommodates both the Physical Educations classes and the Athletic programs.
