Facility Bio: 12 years in the making, after much voting, recounting, and more voting, the Fruita Community Center opened January 2011. It is the only recreation center serving the Grand Valley of 150,000 people, so it was much needed.

Comprised of a library, daycare, senior center, meeting rooms, pool, fitness center, and indoor track, the center is adjacent to the renovated outdoor pool and local medical center. It is now truly the heart of the town and the citizens of the small town of Fruita couldn't be more proud.
